RESPONSE

United States Patent and Trademark Office
Customer Service Window, Mail Stop Amendment
Randolph Building
401 Dulany Street
Alexandria, VA 22314

Sir:

In response to the restriction requirement of the Office Action dated April 19, 2005, Applicants provisionally elect claims 1-29, the claims of Group I, for further prosecution in the above-identified application. This election is made with traverse.

The Office Action submits that Groups I and III and Groups II and III are respectively related as the process of making and product made. Applicants respectfully submit that this is incorrect. Group I comprises claims to a radiation source, while Group III comprises claims to a device manufacturing method (e.g., a semiconductor device manufacturing method). Groups I and III are clearly not related as product made and the process of making the product. Similarly, Group II comprises claims to a lithographic apparatus, while Group III comprises claims to a device manufacturing method (e.g., a semiconductor device manufacturing method). Groups II and III are clearly not related as product made and the process of making the product. Accordingly, the basis for the restriction requirement is flawed and the restriction requirement must be withdrawn.

Please charge any fees associated with the submission of this paper to
Deposit Account Number 033975. The Commissioner for Patents is also authorized
to credit any over payments to the above-referenced Deposit Account.

Respectfully submitted,
